Equipment:

1. Tuned Grandpiano (this is very important!)
2. Mics for Piano, Saxophone and Announcements

We provide: -2x DPA4099 for Vcl.&Bs.
-„CODA“ Acoustic image Amplifier for the Cello (&evtl. Bass)

Stage setup:

Remark:

We seek an acoustic- chambermusic- like sound, natural and soft and where possible (especially when we play without monitoring) we play almost without amplification.

If we play in a large space with sound system, we need one monitor for each instrument, with separate mixes.

Please have all instruments, amps, microphones, and speakers set up and plugged in at the time the band arrives for sound check, we travel a lot and like to avoid waiting for the equipment to be set up.

Catering:

If you provide food, we are 4 vegetarians in the band.

We are looking forward to the concert and if any questions do arise: please don't hesitate to ask.
